

To Sukarya:

First of all, I would like to inform and congratulate you all that we have registered more than 50,000 beneficiaries through the community and hospital vertical into the mMitra Program in Delhi and NCR regions. So, on behalf of ARMMAN a 'BIG THANKS' to all of you without whose support mMitra program would not have been a success in Delhi and its surrounding regions.

Having said this, I would like to inform you all that we are hosting a conference on "Use of Technology in improving mother-n-child health of underprivileged groups" on 30th November 2016 in Mumbai. The conference will provide space to the diverse range of stakeholders (Government, NGOs, and Corporate) to voice their expert opinions, analysis, proposals in implementing technology backed programs in Maternal and Child Health sector.

A formal invite and agenda will be sent soon to all of you.

Dibyayan Datta

Sr. Project Officer- mMitra Urban Poor Program
